PROFESSIONAL SUMMARY

I am a passionate software engineer with six months of dynamic experience as a full stack developer at Moringa, specializing predominantly in backend development. My journey in the tech world has equipped me with a robust understanding of modern programming practices . My background includes hands-on experience with cutting-edge technologies and a commitment to delivering high-quality, scalable solutions.

With a keen eye for detail and a proactive approach to learning, I excel in developing backend systems that drive seamless and impactful user experiences. My ability to adapt and innovate in fast-paced environments, combined with a collaborative mindset and a relentless drive for excellence, makes me a valuable asset to any team.

I am eager to leverage my technical skills and creative problem-solving abilities to contribute to impactful projects and drive technological advancements. My enthusiasm for continuous learning and my dedication to achieving excellence in every endeavor set me apart as a committed and innovative developer.

Education

St. Andrews Boys School
